A TRADITION OF QUALITY, CUSTOMER SERVICE & INNOVATION

Welcome to the Comfort Zone

STIDD Systems, Inc. manufactures a complete line of recreational, commercial, and military marine seating, combining decades of expertise in ergonomic design and engineering innovation with the pursuit of perfection in everything we do.

Since first bringing innovative materials, biomechanical efficacy, and classic style to the marine seating field in 1991, STIDD Seats have become world-renown for comfort, strength, quality, and universal goodness. While many factors have contributed to our growth and success over the intervening years, above all is an unyielding commitment to quality, service, and value.

As our flotillas of happy customers in every inlet of the globe will tell you, the product we really sell at STIDD Systems is Customer Satisfaction.

All STIDD products in this catalog are dedicated to YOU. YOUR quest for perfection; YOUR thirst for innovation; YOUR appetite for quality; and YOUR resolve to succeed. YOUR word-of-mouth recommendation of STIDD seats influences others to seek the best of everything in life, every day, and drives the entire STIDD team to greater innovation in technology and customer support.

Catalog 26 marks our twenty-sixth year in The Good Seat business, so we take this opportunity to thank YOU, our loyal customers for giving all of us at STIDD the opportunity to excel.

• MILITARY HERITAGE • LUXURIOUS COMFORT • PROVEN PERFORMANCE

Ergonomics, Comfort, Strength & Excellence

For individuals of all body types, STIDD Systems' Ergonomic Marine Seating provides anatomically correct, comfortable positioning and passive restraint for the functional marine environment, while integrating strong, lightweight, corrosion-proof materials with easy-to-operate, multi-functional adjustment features and dynamic appearance.

Biomechanical research indicates that ergonomically correct positioning and stabilization (EPS) maximizes the alertness and performance of individuals in stressful settings. The revolutionary STIDD Systems seating product line is the direct result of combining the latest EPS data with developments in Human Factors Engineering, Computer Aided Design (CAD) and Computerized Numerically Controlled (CNC) production methods with advanced materials and coatings.

Built to MIL Standards using CNC manufacturing techniques and proprietary materials proven to survive the open seas, STIDD seats provide unparalleled strength and corrosion resistance as well as anatomically correct, comfortable positioning for the marine environment.

Boat Shows

Our boat show exhibit booth is a great place to touch what's new, talk to the seating experts, and feel the wonder of STIDD seats for yourself. Visit stidd.com for our boat show schedule.

We look forward to "seating you"

The Amazing USCG 47MLB

The U.S. Coast Guard's 47-foot Motor Lifeboat (47MLB), is a heavy weather patrol/rescue craft designed to operate in extreme conditions to help save lives.

Surpassing search and rescue technologies of the past, the 47MLB operates successfully in such extreme conditions as hurricane-force winds and 20+ foot breaking seas. Along with the ability to safely survive a 360° rollover, the boat can pitch-poll, flipping end over end or roll over in swells and right itself in less than 10 seconds.

With a combination of open and enclosed bridge steering stations, the crew's comfort and performance is essential. That's why STIDD Systems' Series 500 Flybridge Admirals are standard equipment aboard every production 47MLB.

About STIDD

STIDD Systems, Inc. Occupies a 2 acre shipyard with 62,000 square feet of computerized manufacturing facilities, design and administrative offices located on the Greenport, Long Island harbor, approximately 90 statute miles due east of New York City and 16 nautical miles southwest of New London, CT.

STIDD Systems' facility has been in continuous use as a shipyard since 1831. In World War I, the shipyard built 60 ft. patrol boats, and during World War II, the yard set Navy production records, delivering 440 136 ft. minesweepers and 1100 landing craft with a labor force of 7500 workers on three shifts.

Contact us for C.O.M. leather requirements and other custom upholstery options.

ADD THE CONVENIENCE OF MOTORIZED ADJUSTMENTS

A captain's dream, STIDD's proven power option puts seat adjustments at your fingertips. Our standard power package offers motorized fore/aft and vertical height adjustments, without leaving the seat. Never before has a marine seat been so easy to adjust, so comfortable, yet so durable. For the ultimate specify STIDD's exclusive Power Swivel Upgrade. See page 12 for more information on STIDD Power options.

The benchmark of seaworthy opulence for the helm or topsides

DELUXE LOW BACK ADMIRAL 500XL

Top: Outdoor Comfort Zone . . . two 500XL-2X2's on the flybridge of an Offshore 80.

Above Left: A 52 SeaRay Sedan Bridge sports new found style and comfort at the helm with a STIDD 500NTH-3NF in "White" UltraLeather. The installation was easy too, thanks to STIDD's new 6 bolt to 8 bolt adapter. (See page 15)

"A LITTLE" ABOUT THE SLIMLINE

STIDD Systems' Slimline Admiral seats are the perfect solution for applications where space is tight. Enjoy all of the comfort and quality of a full size STIDD seat in less space. Choose from Slimline Low Back or Slimline High Back models in your choice of powdercoat or deluxe chrome finishes. Slimline seats are 5" narrower arm-to-arm than standard Series 500 seats, they are only 1 1/2" narrower in seating width making them feel just as comfortable as a full-sized seat, even for full-sized occupants. Slimline seats are also 1" shallower fore/aft and the folding footrest is 1" higher, conforming to the requirements of our ergonomic database.

The right look with the right fit is everything

DELUXE SLIMLINE LOW BACK 500NX

Make your STIDD Seat even better.

OPTIONS & ACCESSORIES

POWER OPTIONS

A captain's dream, STIDD's proven power option puts seat adjustments at your fingertips. Motorized fore/aft vertical height, and swivel adjustments can be made without leaving the seat. Never before has a marine seat been so easy to adjust, so comfortable, yet so durable.

Specify 12VDC (standard) or 24VDC (optional) when placing your order. No exposed wiring - all wiring runs through the pedestal for a neat appearance. All electronic components are completely marinized.

Power options are available for all STIDD models.

- Motorized 8-inch fore/aft travel
- Motorized 8-inch vertical height adjustment
- Power Swivel upgrade allows 180° port and starboard rotation.

POWER REQUIREMENTS :

12VDC/15 amp maximum load.
Fuse with 20 amp circuit breaker.

24VDC/ 8 amp maximum load.
Fuse with 10 amp circuit breaker.

stidd.com

A. CUP HOLDER / ACCESSORY TRAY Model 510-199

Holds your drink and your sunglasses, too. Easy to install and finished in matching powdercoat this fold out cup holder fits either left or right arm. Fits all models, order with your new STIDD seat or retrofit.

B. CHART POCKET Model 510-108

Stow your charts, maps, notebooks and favorite reading material right behind your seat. Upholstered in matching seat fabric, this convenient storage pocket features an elastic top, durable contoured ABS backing, and drainage holes. Order with your new STIDD seat or retrofit.

C. X4 RECLINER OPTION

This unique design converts from a standard footrest to a luxurious recliner in seconds. For new Series 500 and Slimline highback orders only. Available in powdercoat or deluxe chrome finishes.

Independent backrest functions allows you to recline and lock in your personal comfort angle.

D. PROTECTIVE COVERS Model U/C500-200-C

Protect your investment with an authentic STIDD cover. The white marine-grade sunbrella looks sharp while protecting your seats when not in use. Embroidered with the STIDD logo, available for all models. Specify full-size or slimline, highback or lowback when ordering.

E. ACCESSORY BULKHEAD MOUNT FOOTREST

Model 510-116B

Our X2 folding footrest in a bulkhead mount! For use with box mounted seats. Powdercoat or chrome finish.

F. SPORTFISH BACK Model 510-117

Available for Series 500 and 500N Low Back models, this forward folding backrest option offers increased visibility and a convenient support to lean against when facing aft.

Décor

UPHOLSTERY COVERINGS

C.O.M. & FACTORY-SUPPLIED PREMIUM LEATHER

For those rare individuals in whose vocabulary the words "compromise" and "economize" do not exist, factory-supplied premium leather and customer supplied upholstery options are also available for any STIDD seat. 75 square feet of customer's premium leather is required per seat. If fabric is supplied: 4 yards of 54-inch wide roll stock is recommended. Contact factory for more details. Upholstery up-charge applies to all COM and Leather options.

POLYURETHANE (UltraLeather)

Our most popular upholstery choice, because it is truly the best value! For a warm and rich upholstery covering with the optimal combination of comfort and strength, choose Polyurethane over spun rayon (a marine grade formulation of a fabric commonly referred to as "UltraLeather"). This amazing synthetic leather-like plastic is strong, durable, supple and easy to maintain, which is why it has become the choice of sport fishermen, interior designers and discriminating yacht owners. Our Polyurethane is treated with STIDD's proprietary formulation to resist mold and fungus, making it suitable for either exterior or interior marine use. Available in over 60 colors! The Polyurethane package includes a wrapped backpan exterior. Available for all models.

VINYL (Naugahyde)

Available in a range of basic colors, this traditional Naugahyde vinyl covering is "industrial strength". Our most economical covering, vinyl is generally used in either interior or exterior places, where extreme comfort is not a primary goal. The standard vinyl package does not include a wrapped backpan exterior. Available for all models.

So many colors . . . so little time

COLOR CHARTS

Here's a sampling of popular UltraLeather colors. There are over 62 colors to choose from! We're here to assist you. Call 631-477-2400 X120 to request color charts and samples.

G. ACCENT PIPING OPTION

Add flare to any STIDD seat with this optional upholstery trim package #510-124. Combine the colors of your choice for a decorating accent that reflects your personal style. Optional upholstery piping is available for all STIDD models.

H. QUILTED CUSHION OPTION

For an up-scale design element, ask about STIDD's new quilted upholstery option. Our diamond shaped quilting offers a three dimensional texture with a luxury touch.

I. FRENCH SEAM OPTION

This elegant seam finishing technique is now available for all STIDD models.

J. TEAK TRIM OPTION

Get the classic sportfish look, without the traditional backache! STIDD's gleaming bright teak package features a teak ladder back; teak armrest hubs and teak foot tread. All hand finished with 10 coats of Epiphanes tongue oil varnish and hand rubbed between coats for a spectacular appearance. 510-118 Teak trim package is available for STIDD 500, 500N and 1200 low back models.

REPLACEMENT CUSHIONS

Make your STIDD look like new again. Order genuine STIDD replacement cushions factory direct. Individual cushions or complete sets available. Easy do-it-yourself installation. Provide the serial number from your STIDD seat and call for assistance.

ADDITIONAL FABRIC YARDAGE

Need matching material to complete your overhead? Additional 54" wide roll stock is available by the yard, up to 33 yds. per roll. Order as many yards as you need! p/n 510-112.

Discover all of the ergonomic features built in to your STIDD Seat

BUILT FOR THE GREAT OUTDOORS!

- STIDD seats excel at every station: pilothouse, salon or flybridge.
- Our quality craftsmanship in aluminum and stainless to MIL specs conveys immunity to immersion in salt water.
- Our tough powdercoat and deluxe chrome finishes look good and stay for keeps, where others peel and rot.
- Our hardcoat anodized and solid Acetal components are buried in the seat where they protect your investment without being seen.
- Our electrically isolated components intercept corrosion before it starts.
- Our sealed upholstery cushions and luxurious polyurethane coverings stand up to the toughest abuse and reject water while providing that legendary STIDD comfort.
- Our power drives are ruggedized to survive the worst case scenario.
- Our quality assurance commitment and proactive customer support policies keep STIDD owners out to sea, corrosion-free, and happy!

DECKPLATE NOTES:

12" DIAMETER DECKPLATE

Standard 12-inch base diameter pedestals ship with a 12-inch diameter cast aluminum deckplate in matching finish. Helicoiled and indexed for foolproof installation, once mounted to your deck, the seat becomes integrally coupled to the boat.

Deckplates must be properly mounted to a secure foundation. Seats should be ordered as early in the vessel construction phase as possible to assure timely delivery of color coordinated deck plates to coincide with the completion of your interior overhead. Please note that positioning the deck plate before mounting is very important and installation times may vary due to vessel characteristics.

STANDARD FEATURES

FOLDING-LOCKING ARMRESTS

Adjustable armrests fold a full 90° and lock in place.

WATERPROOF ARMREST LOCK

Push-button lock mechanism releases armrest to swing away for quick lateral exits and freedom of movement, or locks positively in place to secure the armrest for extra hold-on.

ORTHOPEDIC CONTOURS

provide hours of comfortable support. STIDD seats are designed to provide orthopedically correct support, while the "water-fall" front cushion improves circulation to the legs and feet.

360° SWIVEL & LOCK

Rotate a full 360 degrees with spring loaded stainless detent positions at 45° intervals.

X2 FOLDING FOOTREST

Our standard footrest features a rugged ABS tread with stainless "S" logo. Folds up so you can lean against the front seat cushion when standing.

RECLINING BACKREST

Adjust and lock securely in any position over a 40° range. A small adjustment in back angle provides a big difference in ride comfort.

VERTICAL HEIGHT ADJUSTMENT

STIDD telescoping pedestals offer an 8 inch range of vertical height adjustment. Equipped with a locking clamp and airspring counterbalance for convenient height adjustment.

8-INCH FORE/AFT ADJUSTMENT

Move forward for maneuvering or back for cruising or anywhere in-between, with an adjustment range of 8 inches.

MASSIVE TELESCOPING PEDESTAL

Heavy-duty 4-inch diameter aluminum alloy telescoping pedestal provides unsurpassed impact absorption and lateral stability. Standard 12-inch base (shown)

Optional 9-inch base available

PLACEMENT PLANNING

To assist you in planning your seating layout please consider these helpful hints:

- The center of the deck plate is normally mounted approximately 22 inches aft of the nearest obstruction at knee level (i.e. steering wheel, bulkhead, etc.).
- Determine the correct mounting location and confirm that you have a suitable foundation.
- Install the deck plate with the arrow facing forward and center.
- Attach your seat to the deck plate with the stainless fasteners, isolation gasket and washers provided.
- Installers mounting Power seats - take extra care - do not pinch wiring.
- Attach a ground wire to one of the deckplate thru-bolts, to minimize stray galvanic activity between boat and seat.

OPTIONAL 9-INCH BASE TELESCOPING PEDESTALS

Replacing existing seats? Consider our optional 9-inch diameter pedestals. With a universal 3-bolt mounting pattern these bases mate with most 9-inch deckplates* for easy, economical do-it-yourself installation. Available in powdercoat or chrome finishes in manual or power configurations.

*Fits Pomponette, Murray, Todd and other 9-inch diameter deckplates.

6 BOLT to 8 BOLT DECKPLATE ADAPTER

STIDD Model 510-1-175 Adapter

Attention SeaRay owners... don't drop your headliner... upgrading to a STIDD just got easier! Our new adapter mounts directly to your existing 12-inch 6-bolt deckplate for quick and easy STIDD seat installation. Available in powdercoat finish only.

Why stand when you can STIDD?

CONTROL ENCLOSURES

Integrated armrests for Volvo-Penta, Garmin Simrad and ZF Controls

510-145 for Garmin Grid (shown above left) 510-200 for Volvo-Penta IPS Joystick (shown above center) 510-130 for Simrad GB50 Quickstick (shown above right)

Consult factory for more information.

JOYSTICK & TRACKBALL ENCLOSURES

**Armrest mounted Control
Enclosures are available for all
STIDD models**

Contact us with the make and model of your device. Every enclosure is designed with several biomechanical subtleties, such as proper amount of wrist and forearm internal rotation, flexion, and radial deviation to make the input device comfortable to hold, use and operate on long transits. We have delivered enclosures for the most demanding yacht, military and government applications.

Above: Mount it your way - Surface mounts and flush mounts are available for every STIDD.

FA SERIES

This new STIDD seat series is designed for small to mid-sized boats where seats are installed atop storage or fiberglass boxes. The FA Series offers a 7-inch fixed seat height and features a new fore/aft mechanism which provides 7-inches of fore/aft travel. Travel is adjusted by releasing the easy-to-reach paddle at the front edge of the seat. Also, the front edge of the FA pedestal is squared off to allow seat positioning closer to the edge of the box or cabinet.

Now available for 500N, 500, 500W and 1200 models. Powdercoat finish only.
No swivel.

SURFACE MOUNTS

510-1100S

Mount any STIDD seat on an existing box or molded structure at the helm with the 510-1100S surface mount pedestal. Provides a 9-inch fixed seat height for Series 500, 500N, 500W and 1200 seats. Available in matching powdercoat or chrome finish. Ships with a matching deckplate. Accepts manual or power fore/aft equipped seats.

570-1-350 DIRECT COUPLE ADAPTER

The 570-1-350-direct couple adapter provides a static 6-inch fixed seat height for Series 500, 500N, 500W and 1200 seats. No fore/aft adjustment. Finished in matching powdercoat.

ADJUSTABLE SEAT HEIGHT • BOX MOUNT SOLUTIONS

A comfortable adjustable view

Cabinet space with a view! Top: Two 500N Slimlines with deck penetrating telescoping pedestals aboard an MJM 34Z. Right: The helm of the Grand Banks 55 Eastbay SX features a deck penetrating pedestal which provides an adjustable seat height for better visibility.

HI-LOW Deck or Box Penetrating Pedestals

For layouts requiring extreme ranges of seat or table height adjustment, STIDD Deck Penetrating pedestals offer the perfect solution. Available for all models, in deluxe chrome or powdercoat finishes. Consult factory with your specific requirements. Available in manual or power.

510-1100-9.75 - 17.75

Deck Penetrating Pedestal

Our most popular deck penetrating pedestal provides an eight inch telescoping seat height range of 9.75" to 17.75" with 14.6" bury. Available for all models. 9" dia. pedestal base.

DECK TRACKS

For added mobility at the helm, the STIDD deck track system offers a smooth slide carriage. Simply depress the foot bar and slide the seat forward or backward to the desired position, release and lock. Carriage locks every two inches.

510-V205-T Deck Track System.

Powdercoat finish.

Custom track lengths available.

Consult factory with your requirements.

TABLE PEDESTALS

Telescoping Table Pedestals are available in many styles and sizes, manual and power. Consult factory.

Select the telescoping pedestal that best suits your table height requirements, in either manual or power.

- 1 Tall telescoping pedestal
(31-39" Seat Height Range)
(25-33" Table Height Range)
- 2 Medium telescoping pedestal
(26-34" Seat Height Range)
(20-28" Table Height Range)

EXPEDITION TRAY

Model 510-121

Surf the internet, eat lunch, or finally get down to writing your memoirs in the comfort of your STIDD seat, with STIDD's new "Expedition Tray" This clever accessory table is perfect for mariners who need a stable surface for a laptop, a mouse, or for just kicking back and enjoying a snack. You'll find dozens of convenient uses for it. The "Expedition Tray" easily folds out and locks in place, or folds up and stows with the efficient, smart operation that is a hallmark of all STIDD designs. Available for Standard Series 500 and 500N Slimline Seats. For new STIDD seat orders. Powdercoat finish only.

Strong, roomy and so comfortable!

500W 36-INCH WIDE LOW BACK ADMIRAL

500W WIDE

Here's the perfect seat for boat owners who need some extra room. At 36 inches wide the 500W is a full 8 inches wider than standard Series 500 models and 13 inches wider than Slimline seats. Choose from tough baked-on powdercoat or deluxe polished chrome finishes in your choice of upholstery.

500W seats are available with all Series 500 options. Choose power, piping, chrome, surface mounts or deck penetrating pedestals... no matter how you outfit it it's the best seat in the house.

The LCS Freedom variant team led by Lockheed Martin

The LCS Independence variant team led by General Dynamics and Austal USA

STIDD Systems, Inc. is proud to support the US Navy LCS (Littoral Combat Ship) program - with seats aboard both LCS variants. The Littoral Combat Ship (LCS) class is a fast, agile, focused-mission platform designed for operation in near-shore environments yet capable of open-ocean operation.

STIDD has been selected to provide the Bridge seating for both variants of the cutting edge US Navy LCS (Littoral Combat Ship) program and is also provides the standard seating for the CDS (Common Display System) program, which provides standardized interchangeable systems for all classes of US Navy Ships.

With direct replacements for numerous existing shipboard legacy NSNs, STIDD is committed to updating the aging WWII Era seating aboard US Navy ships by providing biomechanically correct seating with unsurpassed quality and comfort imbedded into every STIDD product.

800V53 ADVANCED SHOCK-MITIGATING SEAT BOLSTER

The 800V53 offers a solution to repetitive orthopedic stress injuries resulting from violent slam loads. Proven in 6 ft. seas at 50 knots aboard the MkV Special Operations Craft, the 800V53 provides superior comfort and safety for operators in long-duration, open-water transits.

800V53 STANDARD FEATURES

- 7" Vertical Stroke Shock Absorber
- 30° Reclining Backrest with lumbar and thoracic support and massive headrest
- Quickly converts to standing position

STIDD Series 500 Seats are NMMA Certified

Congratulations . . .

You're finally ready to buy a STIDD seat!

Now, it's time to order the best marine seat in the world! Just follow these easy ordering steps and join the thousands of satisfied mariners for every way-point on the globe who have purchased STIDD Systems' fabulous Ergonomic Marine Seats.

EASY ORDERING GUIDE

The moment of truth!

STEP 1: SELECT A SEAT SERIES

- ☐ **SERIES 500** 28" WIDE
- ☐ **SERIES 500N** SLIMLINE 23" WIDE
- ☐ **SERIES 500W** 36" WIDE SINGLE
- ☐ **SERIES 1200** 45" WIDE DOUBLE BENCH
- ☐ **SERIES 1200W** 54" WIDE

STEP 2: SELECT SEAT BACK

- ☐ **LOW BACK**
- ☐ **HIGH BACK**

Series 500W & 1200 Seats are available in Low Back only.

STEP 3: SELECT FINISH*

- ☐ **DELUXE CHROME & STAINLESS**
- ☐ **POWDER COAT**

STEP 4: SELECT UPHOLSTERY**

- ☐ **VINYL** (Naugahyde)
- ☐ **POLYURETHANE** (UltraLeather)
- ☐ **FACTORY SUPPLIED LEATHER**
- ☐ **C.O.M.** (Customer Supplied Material)

STEP 5: SELECT SEAT HEIGHT***

To select the proper seat height range (SHR) measure from the deck to the seating surface. Pedestals are telescoping and provide the following Seat Height Ranges.

- ☐ **[-1] Tall** 31-39" SHR
 - ☐ **[-2] Medium** 26-34" SHR
 - ☐ **[-3] Low** 19-23" SHR
-
- ☐ **Surface Mount** 9" fixed seat height allows for swivel and fore/aft
 - ☐ **FA Series** 7" fixed seat height fore/aft adjustment. no swivel.
 - ☐ **Direct Couple** static 6" fixed seat height, no fore/aft, no swivel
 - ☐ **Deck Penetrating** Consult Factory
 - ☐ **Shock Mitigating** Consult Factory

All STIDD Seats are fully-equipped, including fore/aft slides, telescoping pedestal, locking swivel, X2 footrest, deck interface plate, and seat hardware...unless ordered otherwise!

* Keep in mind that no matter which level of finish you choose, some or all of the seat frame components and pedestal will be powdercoated to match your upholstery color. Even on the Deluxe Chrome seats, some frame parts are powdercoated to coordinate with your fabric color selection.

** Your upholstery fabric and color selections do not have to be fully decided before ordering, since you normally have a few weeks to finalize while your order enters the production cycle.

*** All pedestals are telescoping (either manual or motorized) with an 8-inch range of adjustment. The "seat height range" (SHR) is a phrase used to help you determine which pedestal to select. The initial seat height is measured from the deck to the surface of the seat cushion where your butt hits the seat in the lowest (down) position. NOTE: Selecting the proper pedestal is one of the most important aspects of your new seat order. Pedestals are complex mechanical assemblies and cannot be "cut down" (like other manufacturers' seats) if you choose the wrong size. Your pedestal decision does not have to be made before ordering (you normally have a few weeks to finalize while your order enters the production cycle), but please try to measure and plan your installation carefully.

STEP 7: SELECT OPTIONS

- ☐ Bright Teak Trim Group
- ☐ Armrest Control Enclosure
- ☐ 510-124 Piping on Cushion Set
- ☐ Fitted Protective Cover
- ☐ 510-199 Cupholder/Accessory Tray
- ☐ 510-108 Chart Pocket
- ☐ 510-112 Additional cut yardage UltraLeather. Specify amount.
- ☐ 510-110 CRES Seat Belt
- ☐ Other _____

STEP 8: SHIPPING METHOD

- ☐ STANDARD GROUND SHIPPING
- ☐ EXPEDITED
- ☐ Overnight " 2nd Day " 3rd Day
- ☐ INTERNATIONAL Economy
- ☐ OTHER _____

STEP 9: PAYMENT

- ☐ CREDIT CARD
- ☐ CHECK
- ☐ WIRE TRANSFER

STEP 10: PLACE YOUR ORDER

Call: 631-477-2400 ext 120

Fax: 631-477-1095

email: sales@stidd.com

If you have additional questions or require a color chart, please call or email us and our team of seat experts will assist you.
