

The Good Seat.

Ergonomic Marine Seating

MADE IN USA

TOPSIDE PERFORMANCE FOR THE PILOTHOUSE & FLYBRIDGE

30 Years
ANNIVERSARY

Break out the champagne we're celebrating 30 years! The helm of the Wajer 55 shown above features four STIDD Slimlines.

Celebrating 30 Years of Quality, Innovation and Customer Care.

Since first bringing ergonomic design and engineering to the marine seating field in 1991, STIDD seats have become world-renown for quality, comfort, strength and universal goodness.

As we celebrate thirty years, we are now proud to raise the bar yet higher as we introduce 100% "Made in USA" indestructible 316L Stainless Steel Castings to our Luxury Seating line.

Now "The Good Seat" welcomes "The Mighty Good Seat" 316L Option to the STIDD Family, in our unyielding commitment to quality, strength, comfort and service.

As flotillas of happy customers around the globe will tell you, the product that we really sell at STIDD is total customer satisfaction. So, we dedicate this catalog to YOU. We thank you – our loyal customers- for giving us 30 years of opportunity to excel.

Walter Gezari

On the cover: Hinckley Talaria 55 MKII features intricate woodworking and the unsurpassed comfort of STIDD seats.

Just ask the Piano Man and boat builder - Billy Joel "STIDD seats are the best seats in the house".

Above: Wajer 55 combines unique styling and speed all with the comfort of STIDD seats.

Ergonomics, Comfort, Strength & Excellence

For individuals of all body types, STIDD Systems' Ergonomic Marine Seating provides anatomically correct, comfortable positioning and passive restraint for the functional marine environment, while integrating strong, lightweight, corrosion-proof materials with easy-to-operate, multi-functional adjustment features and dynamic appearance.

Biomechanical research indicates that ergonomically correct positioning and stabilization (EPS) maximizes the alertness and performance of individuals in stressful settings. The revolutionary STIDD Systems seating product line is the direct result of combining the latest EPS data with developments in Human Factors Engineering, Computer Aided Design (CAD) and Computerized Numerically Controlled (CNC) production methods with advanced materials and coatings. Built to MIL Standards using CNC manufacturing techniques and proprietary materials proven to survive the open seas, STIDD seats provide unparalleled strength and corrosion resistance as well as anatomically correct, comfortable positioning for the marine environment.

NEW!

INTRODUCING

"The Mighty Good Seat"

STIDD'S DELUXE 316L STAINLESS OPTION

Transform your boating experience with our new 316L Stainless Steel Option. Developed and produced exclusively for our most discerning superyacht customers, STIDD is proud to introduce 316L stainless components, available in 2022 across our full-line of Luxury seating products.

Now you can enjoy the superior corrosion resistant qualities of 316L stainless components and the legendary comfort of STIDD seats for years to come.

BACKED BY AN INDUSTRY-LEADING 10-YEAR WARRANTY!

Proudly featuring 100% American made CRES 316L alloy polished stainless steel investment castings and weldments.

STIDD Polished 316L Stainless Components Include:

- Polished 316L Stainless Cast Arm Hubs
- Polished 316L Stainless Footrest Hangers and Cast Foot Plate.
- Polished 316L Stainless Pedestal Tube, Cast Base & Cast Deck Plate

Also includes: Stainless Trigonal Adjustment Handles, Stainless Foot tread logo and Bright Stainless Logo Emblem.

- 100% made in USA 316L castings.
- American components manufactured, polished and assembled and to the highest quality standards.

About Stainless

316L stainless steel is a molybdenum-alloyed steel is the preferred steel for use in marine environments because of its greater resistance to pitting corrosion than other grades of steel without molybdenum. Long specified by marine designers and builders for its durability, corrosion resistance, and strength in salt water exposure, 316L Stainless is classified at the highest CRES (Corrosion Resistance) by classification societies and governments worldwide.

For decades, as industrial supply chains of marine foundry products moved out of the US to cheap labor markets in Asia, it has become increasingly difficult to reliably source highest quality 316L stainless steel castings in the USA at competitive costs...until now.

After years of development and engineering of precision investment castings with a small foundry and metals finisher in the USA. STIDD has succeeded in producing 100% Made in USA polished 316L Stainless Steel castings exclusively for our most discerning customers, and we are now proud to make 316L stainless available across our full-line of Luxury seating products.

Now, you can enjoy the superior corrosion resistant qualities of 100% Made in USA 316L stainless components for the world's most demanding mariners...and they are backed by an INDUSTRY LEADING 10-YEAR WARRANTY!*

Redefining the Luxury Yacht Interior

Above left: a 52 SeaRay Sedan Bridge refit with a 500NXH-3NF in "White" UltraLeather. The installation was easy thanks our 6-bolt to 8-bolt adapter plate (see page 15).

"A LITTLE" ABOUT THE SLIMLINE SERIES

STIDD Systems' Slimline Series seats are the perfect solution for applications where space is tight. Enjoy all of the comfort and quality of a full-size STIDD seat in less space. Choose from Slimline low back or high back models in your choice of powdercoat or deluxe chrome finishes.

Slimline seats are five inches narrower arm-to-arm than standard Series 500 seats but they are only 1 1/2 inches narrower in seating width and only 1-inch shallower in seating depth - making them feel just as comfortable as a full-size seat - even for "full-sized" occupants.

*The footrest is 1" higher - conforming to the requirements of our ergonomic database.

The right look with the right fit is everything

DELUXE SLIMLINE LOW BACK ADMIRAL 500NS & 500NX

500NX-2X2 Deluxe Slimline Low Back Admiral shown in "Chamois" UltraLeather with matching powdercoat frame, medium (-2) telescoping pedestal and folding footrest in deluxe chrome and stainless.

500NX LOW BACK

Luxury SLIMLINE

They say that good things come in small packages, and that holds true for our 500NX Luxury Slimline model. Just 23-inches wide the 500NX is beautifully finished with deluxe polished chrome accents to provide elegant, durable sparkling compact seating for the pilothouse or flybridge.

The Amazing USCG 47MLB

The U.S. Coast Guards 47-foot Motor Lifeboat (47MLB), is a heavy weather patrol/rescue craft designed to operate in extreme conditions to help save lives. Surpassing search and rescue technologies of the past, the 47MLB operates successfully in such extreme conditions as hurricane-force winds and 20+ foot breaking seas. Along with the ability to safely survive a 360° rollover, the boat can pitch-poll, flipping end over end or roll over in swells and right itself in less than 10 seconds With a combination of open and enclosed bridge steering stations, the crew's comfort and performance is essential. That's why STIDD Systems' Series 500 Admirals are standard equipment aboard every production 47MLB.

About STIDD

STIDD Systems, Inc. Occupies a 2 acre shipyard with 62,000 square feet of computerized manufacturing facilities, design and administrative offices located on the Greenport, Long Island harbor, approximately 90 statute miles due east of New York City and 16 nautical miles southwest of New London, CT. STIDD Systems' facility has been in continuous use as a shipyard since 1831. In World War I, the shipyard built 60 ft. patrol boats, and during World War II, the yard set Navy production records, delivering 440 136 ft. minesweepers and 1100 landing craft with a labor force of 7500 workers on three shifts.

SERIES 500-100 & 500-200 • Powdercoated Seat Package

Discover all of the STIDD ergonomic features

STANDARD FEATURES

FOLDING-LOCKING ARMRESTS
Adjustable armrests fold a full 90° and lock in place

WATERPROOF ARMREST LOCK
Push-button lock mechanism releases the armrest to swing away for quick exits and freedom of movement, or locks positively in place to secure the armrest for extra hold-on.

ORTHOPEDIC CONTOURS
STIDD seats are designed to provide orthopedically correct support. The waterfall design of the seat cushion improves circulation to the legs and feet so you can sit comfortably for hours on long transits

360° SWIVEL AND LOCK
STIDD seats rotate a full 360 degrees with spring loaded stainless detent positions at 45° intervals.

X2 FOLDING FOOTREST
Our standard folding footrest folds up so you can lean against the seat cushion when standing. Complete with a rugged ABS tread and stainless "S" logo.

RECLINING BACKREST
Adjust and lock securely in any position over a 40° range. A small adjustment in back angle can provide a big difference in ride comfort.

8-INCH FORE/AFT SLIDE
Move forward for maneuvering or back for cruising or anywhere in between. Nominal 8-inch adjustment range.

VERTICAL HEIGHT ADJUSTMENT
STIDD telescoping pedestals offer an 8-inch range of vertical height adjustment. Equipped with a locking clamp and gas spring counter-balanced for convenient height adjustment.

MASSIVE TELESCOPING PEDESTAL
STIDD's heavy-duty 4-inch diameter aluminum alloy telescoping pedestals provide unsurpassed impact absorbson and lateral stability. Choose from standard 12-inch diameter or optional 9-inch diameter bases.

DECK PLATE NOTES

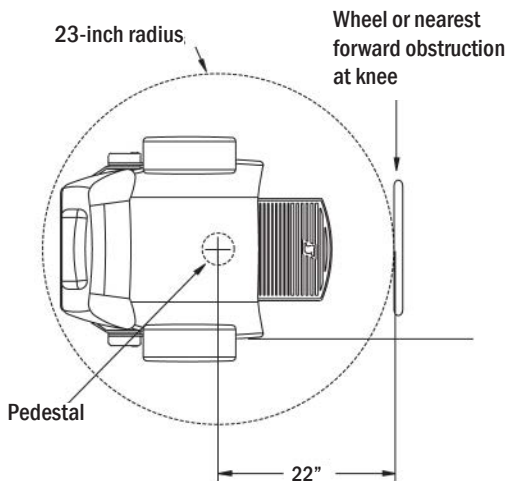

Standard 12-inch diameter base pedestals ship with a 12-inch diameter cast aluminum deck plate in matching finish. Helicoied and indexed for foolproof installation, once mounted to your deck, the seat becomes integrally coupled to the boat.

Deck plates must be properly mounted to a secure foundation. Seats should be ordered as early in the construction phase as possible to assure timely delivery of color coordinated deck plates to coincide with the completion of your interior overhead. Please note that positioning the deck plate before mounting is very important and installation times may vary due to vessel characteristics.

PLACEMENT PLANNING

To assist you in planning your seating layout, please consider these helpful hints.

- The center of the deckplate is normally mounted approximately 22-inches aft of the nearest obstruction at knee level. (i.e. steering wheel, bulkhead, etc.)
- Determine the correct mounting location and confirm that you have suitable foundation.
- Install the deck plate with the arrow facing forward and center.
- Attach your seat to the deck plate with the stainless fasteners, isolation gasket and washers provided.
- Installers mounting Power Seats - TAKE EXTRA CARE Do not pinch the wiring!
- Attach a ground wire to one of the deck plate thru-bolts to minimize stray galvanic activity between boat and seat.

UPHOLSTERY COVERINGS

POLYURETHANE (Ultraleather)

Our most popular upholstery choice, because it is truly the best value! For a warm and rich upholstery covering with the optimal combination of comfort and strength, choose Polyurethane over spun rayon (a marine grade formulation of a fabric commonly referred to as "Ultraleather"). This amazing synthetic leather-like plastic is strong, durable, supple and easy to maintain, which is why it has become the choice of sport fishermen, interior designers and discriminating yacht owners. Available for all models.

VINYL (Naugahyde)

Available in a range of basic colors, this traditional Naugahyde vinyl covering is "industrial strength". Our most economical covering, vinyl is generally used in either interior or exterior places, where extreme comfort is not a primary goal. Available for all models.

C.O.M. & FACTORY-SUPPLIED PREMIUM LEATHER

For those rare individuals in whose vocabulary the words "compromise" and "economize" do not exist, factory-supplied premium leather and customer supplied upholstery options are also available for any STIDD seat. 75 square feet of customer's premium leather is required per seat. If fabric is supplied: 4 yards of 54-inch wide roll stock is recommended. Contact factory for more details. Upholstery up-charge applies to all COM and Leather options.

ADDITIONAL FABRIC YARDAGE

Need matching material to complete your overhead? Additional 54" wide roll stock is available by the yard, up to 33 yds. per roll. Order as many yards as you need!

Make your STIDD seat even better

A. TEAK TRIM OPTION

Get the classic sportfish look, without the traditional backache! STIDD's gleaming bright teak package features a teak ladder back; teak armrest hubs and teak foot tread. All hand finished with 10 coats of Epiphanies tongue oil varnish and hand rubbed between coats for a spectacular appearance. 510-118 Teak trim package is available for STIDD 500, 500N and 1200 low back models.

B. CUP HOLDER / ACCESSORY TRAY

Holds your drink and your sunglasses, too. Easy to install and finished in matching powdercoat this fold out cup holder fits either left or right arm. Fits all models, order with your new STIDD seat or retrofit Order p/n 510-199.

C. ACCENT PIPING

Add flare to any STIDD seat with this optional upholstery trim package #510-124. Combine the colors of your choice for a decorating accent that reflects your personal style. Optional upholstery piping is available for all STIDD models

D. PROTECTIVE COVERS

Protect your investment with an authentic STIDD cover. The white marine-grade sunbrella looks sharp while protecting your seats when not in use. Embroidered with the STIDD logo, available for all models. Specify full-size or slimline, highback or lowback when ordering.

E. CHART POCKET

Stow your charts, maps, notebooks and favorite reading material right behind your seat. Upholstered in matching seat fabric, this convenient storage pocket features an elastic top, durable contoured ABS backing, and drainage holes. Order with your new STIDD seat or retrofit. Order p/n 510-108

OPTIONS & ACCESSORIES

F. SPORTFISH BACK

Available for Series 500 and 500N Low Back models, this forward folding backrest option offers increased visibility and a convenient support to lean against when facing aft. Specify p/n 510-117

G. ACCESSORY BULKHEAD MOUNT FOOTREST

Our X2 folding footrest in a bulkhead mount! For use with box mounted seats. Powdercoat or chrome finish p/n 510-116-B

H. REPLACEMENT CUSHIONS

Make your STIDD look like new again. Order genuine STIDD replacement cushions factory direct. Individual cushions or complete sets are available. Easy do-it-yourself installation. Please provide the serial number from your STIDD seat and call for assistance.

- New cushions come ready to install.
- We do not recover worn cushions – You don't send anything back.
- Replacement cushions are factory replacements made with STIDD's proprietary foam so your STIDD seat will look and FEEL like new!
- Installation is easy. Simply remove the upholstery caps, and remove/install with a Phillips head screwdriver

I. FRENCH SEAM OPTION

This elegant seam technique is now available as an upgrade for all STIDD models.

J. QUILTED CUSHION SET

For an up-scale design element, ask about STIDD's new quilted upholstery option. Our diamond shaped quilting offers a three dimensional texture with a luxury feel

STIDD POWER OPTIONS

A captain's dream, STIDD's proven power option puts seat adjustments at your fingertips. Motorized fore/aft vertical height, and swivel adjustments can be made without leaving the seat. Never before has a marine seat been so easy to adjust, so comfortable, yet so durable. Specify 12VDC (standard) or 24VDC (optional) when placing your order. No exposed wiring - all wiring runs through the pedestal for a neat appearance. All electronic components are completely marinized. Power options are available for all STIDD models.

It's showtime! Best seats in a supporting role

OPTIONAL 9-INCH BASE TELESCOPING PEDESTALS

Replacing existing seats? Consider our optional 9-inch diameter pedestals. With a universal 3-bolt mounting pattern these bases mate with most 9-inch deckplates* for easy, economical do-it-yourself installation. Available in powdercoat or chrome finishes in manual or power configurations.

*Fits Pomponette, Murray, Todd and other 9-inch diameter deckplates.

6 BOLT to 8 BOLT DECKPLATE ADAPTER

STIDD Model 510-1-175 Adapter

Attention SeaRay owners... don't drop your headliner... upgrading to a STIDD just got easier! Our new adapter mounts directly to your existing 12-inch 6-bolt deckplate for quick and easy STIDD seat installation. Available in powdercoat finish only.

Why stand when you can STIDD?

CONTROL ENCLOSURES

Integrated armrests for Volvo-Penta, Garmin Simrad and ZF Controls
510-145 for Garmin Grid (shown above left) 510-200 for Volvo-Penta IPS Joystick (shown above center) 510-130 for Simrad GB50 Quickstick (shown above right)

Consult factory for more information.

JOYSTICK & TRACKBALL ENCLOSURES

Armrest mounted Control Enclosures are available for all STIDD models

Contact us with the make and model of your device. Every enclosure is designed with several biomechanical subtleties, such as proper amount of wrist and forearm internal rotation, flexion, and radial deviation to make the input device comfortable to hold, use and operate on long transits. We have delivered enclosures for the most demanding yacht, military and government applications.

Above: Mount it your way - Surface mounts and flush mounts are available for every STIDD.

FA SERIES

This new STIDD seat series is designed for small to mid-sized boats where seats are installed atop storage or fiberglass boxes. The FA Series offers a 7-inch fixed seat height and features a new fore/aft mechanism which provides 7-inches of fore/aft travel. Travel is adjusted by releasing the easy-to-reach paddle at the front edge of the seat. Also, the front edge of the FA pedestal is squared off to allow seat positioning closer to the edge of the box or cabinet.

Now available for 500N, 500, 500W and 1200 models. Powdercoat finish only. No swivel.

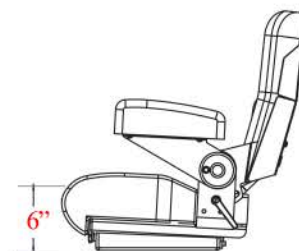

570-1-350 DIRECT COUPLE ADAPTER

The 570-1-350-direct couple adapter provides a static 6-inch fixed seat height for Series 500, 500N, 500W and 1200 seats. No fore/aft adjustment. Finished in matching powdercoat.

SURFACE MOUNTS

510-1100S

Mount any STIDD seat on an existing box or molded structure at the helm with the 510-1100S surface mount pedestal. Provides a 9-inch fixed seat height for Series 500, 500N, 500W and 1200 seats. Available in matching powdercoat or chrome finish. Ships with a matching deckplate. Accepts manual or power fore/aft equipped seats.

ADJUSTABLE SEAT HEIGHT • BOX MOUNT SOLUTIONS

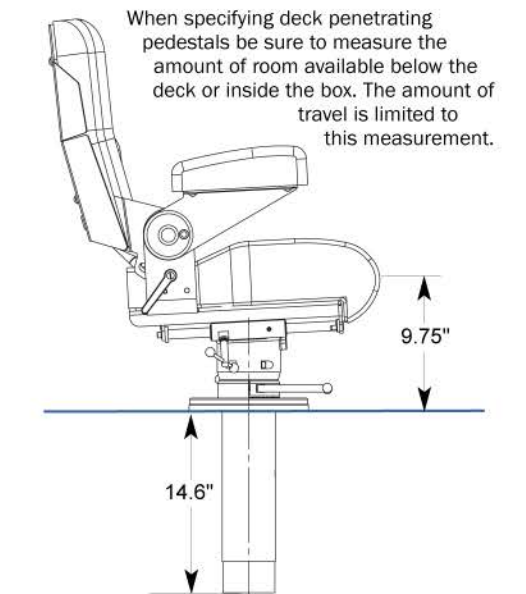

Cabinet space with a view! Top: Two 500N Slimlines with deck penetrating telescoping pedestals aboard an MJM 34Z. Right: The helm of the Grand Banks 55 Eastbay SX features a deck penetrating pedestal which provides an adjustable seat height for better visibility.

A comfortable adjustable view

HI-LOW Deck or Box Penetrating Pedestals

For layouts requiring extreme ranges of seat or table height adjustment, STIDD Deck Penetrating pedestals offer the perfect solution. Available for all models, in deluxe chrome or powdercoat finishes. Consult factory with your specific requirements. Available in manual or power.

510-1100-9.75 - 17.75 Deck Penetrating Pedestal

Our most popular deck penetrating pedestal provides an eight inch telescoping seat height range of 9.75" to 17.75" with 14.6" bury. Available for all models. 9" dia. pedestal base.

DECK TRACKS

For added mobility at the helm, the STIDD deck track system offers a smooth slide carriage. Simply depress the foot bar and slide the seat forward or backward to the desired position, release and lock. Carriage locks every two inches. **510-V205-T Deck Track System.** Powdercoat finish. Custom track lengths available. Consult factory with your requirements.

TABLE PEDESTALS

Telescoping Table Pedestals are available in many styles and sizes, manual and power. Consult factory. Select the telescoping pedestal that best suits your table height requirements, in either manual or power.

- 1 Tall telescoping pedestal (31-39" Seat Height Range) (25-33" Table Height Range)
- 2 Medium telescoping pedestal (26-34" Seat Height Range) (20-28" Table Height Range)

EXPEDITION TRAY

Model 510-121

Surf the internet, eat lunch, or finally get down to writing your memoirs in the comfort of your STIDD seat, with STIDD's new "Expedition Tray" This clever accessory table is perfect for mariners who need a stable surface for a laptop, a mouse, or for just kicking back and enjoying a snack. You'll find dozens of convenient uses for it. The "Expedition Tray" easily folds out and locks in place, or folds up and stows with the efficient, smart operation that is a hallmark of all STIDD designs. Available for Standard Series 500 and 500N Slimline Seats. For new STIDD seat orders. Powdercoat finish only.

Strong, roomy and so comfortable!

500W 36-INCH WIDE LOW BACK ADMIRAL

500W • WIDE •

Here's the perfect seat for boat owners who need some extra room. At 36 inches wide the 500W is a full 8 inches wider than standard Series 500 models and 13 inches wider than Slimline seats. Choose from tough baked-on powdercoat or deluxe polished chrome finishes in your choice of upholstery.

500W seats are available with all Series 500 options. Choose power, piping, chrome, surface mounts or deck penetrating pedestals... no matter how you outfit it it's the best seat in the house.

The LCS Independence variant team led by General Dynamics and Austal USA

STIDD Systems, Inc. is proud to support the US Navy LCS (Littoral Combat Ship) program - with seats aboard both LCS variants. The Littoral Combat Ship (LCS) class is a fast, agile, focused-mission platform designed for operation in near-shore environments yet capable of open-ocean operation.

STIDD has been selected to provide the Bridge seating for both variants of the cutting edge US Navy LCS (Littoral Combat Ship) program and is also provides the standard seating for the CDS (Common Display System) program, which provides standardized interchangeable systems for all classes of US Navy Ships.

With direct replacements for numerous existing shipboard legacy NSNs, STIDD is committed to updating the aging WWII Era seating aboard US Navy ships by providing biomechanically correct seating with unsurpassed quality and comfort imbedded into every STIDD product.

800V53 ADVANCED SHOCK-MITIGATING SEAT BOLSTER

The 800V53 offers a solution to repetitive orthopedic stress injuries resulting from violent slam loads. Proven in 6 ft. seas at 50 knots aboard the MkV Special Operations Craft, the 800V53 provides superior comfort and safety for operators in long-duration, open-water transits.

800V53 STANDARD FEATURES

- 7" Vertical Stroke Shock Absorber
- 30° Reclining Backrest with lumbar and thoracic support and massive headrest
- Quickly converts to standing position
- Forearm supports with "Stealth" hand grips
- Corrosion Resistant Stainless CRES Lap Belt
- Ergonomic Mission- configurable variable rate physiological foam cushions
- Hi-Tenacity polyester upholstery
- Fold-away Locking Reinforced Armrests
- Fold-away Stainless Footrest
- Rear Passenger Grab Bar
- Welded Aluminum Alloy Structure
- Non-corrosive components
- Modular frame construction for single or double seat configurations.

Now, it's time to order the best marine seat in the world! Just follow these easy ordering steps and join the thousands of satisfied mariners for every way-point on the globe who have purchased STIDD Systems' fabulous Ergonomic Marine Seats.

EASY ORDERING GUIDE

The moment of truth

STEP 1: SELECT A SEAT SERIES

- ☐ **SERIES 500** 28" WIDE
- ☐ **SERIES 500N** SLIMLINE 23" WIDE
- ☐ **SERIES 500W** 36" WIDE SINGLE
- ☐ **SERIES 1200** 45" WIDE DOUBLE BENCH
- ☐ **SERIES 1200W** 54" WIDE

STEP 2: SELECT SEAT BACK

- ☐ **LOW BACK**
- ☐ **HIGH BACK**

Series 500W & 1200 Seats are available in Low Back only

STEP 3: SELECT FINISH*

- ☐ **DELUXE POLISHED 316L STAINLESS**
- ☐ **STANDARD POLISHED CHROME**
- ☐ **POWDER COAT**

STEP 4: SELECT UPHOLSTERY**

- ☐ **VINYL** (Naugahyde)
- ☐ **POLYURETHANE** (UltraLeather)
- ☐ **FACTORY SUPPLIED LEATHER**
- ☐ **C.O.M.** (Customer Supplied Material)

STEP 5: SELECT SEAT HEIGHT***

To select the proper seat height range (SHR) measure from the deck to the seating surface. Pedestals are telescoping and provide the following Seat Height Ranges.

- ☐ **[-1] Tall** 31-39" SHR
- ☐ **[-2] Medium** 26-34" SHR
- ☐ **[-3] Low** 19-23" SHR

- ☐ **Surface Mount** 9" fixed seat height allows for swivel and fore/aft
- ☐ **FA Series** 7" fixed seat height fore/aft adjustment. no swivel.
- ☐ **Direct Couple** static 6" fixed seat height, no fore/aft, no swivel
- ☐ **Deck Penetrating** Consult Factory
- ☐ **Shock Mitigating** Consult Factory

All STIDD Seats are fully-equipped, including fore/aft slides, telescoping pedestal, locking swivel, X2 footrest, deck interface plate, and seat hardware...unless ordered otherwise.

* Keep in mind that no matter which level of finish you choose, some or all of the seat frame components and pedestal will be powdercoated to match your upholstery color. Even on the Deluxe Chrome seats, some frame parts are powdercoated to coordinate with your fabric color selection.

** Your upholstery fabric and color selections do not have to be fully decided before ordering, since you normally have a few weeks to finalize while your order enters the production cycle.

*** All pedestals are telescoping (either manual or motorized) with an 8-inch range of adjustment. The "seat height range" (SHR) is a phrase used to help you determine which pedestal to select. The initial seat height is measured from the deck to the surface of the seat cushion where your butt hits the seat in the lowest (down) position. NOTE: Selecting the proper pedestal is one of the most important aspects of your new seat order. Pedestals are complex mechanical assemblies and cannot be "cut down" (like other manufacturers' seats) if you choose the wrong size. Your pedestal decision does not have to be made before ordering (you normally have a few weeks to finalize while your order enters the production cycle), but please try to measure and plan your installation carefully.

STEP 6: SELECT ADJUSTMENT

- ☐ **MANUAL**
- ☐ **12VDC POWER** ☐ **24VDC POWER**

STEP 7: SELECT OPTIONS

- ☐ Bright Teak Trim Group
- ☐ Armrest Control Enclosure
- ☐ 510-124 Piping on Cushion Set
- ☐ Fitted Protective Cover
- ☐ 510-199 Cupholder/Accessory Tray
- ☐ 510-108 Chart Pocket
- ☐ 510-112 Additional cut yardage UltraLeather. Specify amount.
- ☐ 510-110 CRES Seat Belt
- ☐ Other _____

STEP 8: SHIPPING

- ☐ **STANDARD GROUND SHIPPING**
- ☐ **EXPEDITED**
- ☐ **Overnight** " 2nd Day " 3rd Day
- ☐ **INTERNATIONAL Economy**
- ☐ **OTHER**

STEP 9: PAYMENT

- ☐ **CREDIT CARD**
- ☐ **CHECK**
- ☐ **WIRE TRANSFER**

STEP 10: PLACE YOUR ORDER

Call: 631-477-2400 (Option 1)

Fax: 631-477-1095

email: sales@stidd.com

If you have additional questions or require a color chart, please call or email us and our team of seat experts will assist you.
