"A LITTLE" ABOUT THE SLIMLINE SERIES

STIDD Systems' Slimline Series seats are the perfect solution for applications where space is tight. Enjoy all of the comfort and quality of a full-size STIDD seat in less space. Choose from Slimline low back or high back models in your choice of powdercoat or deluxe chrome finishes.

Slimline seats are five inches narrower arm-to-arm than standard Series 500 seats but they are only 1 ½ inches narrower in seating width and only 1-inch shallower in seating depth - making them feel just as comfortable as a full-size seat - even for "full-sized" occupants.

*The footrest is 1" higher - conforming to the requirements of our ergonomic database.
